

support the bill. I just want to point out this is not the Harris family from McCook. This is Harris Labs. I always refer to them as the Harris's in Lincoln with money. But it is a very good bill. This bill is a special treatment for a situation that presents itself many times and I would like to read from an article that was in the paper recently on January 28th to 29th about the Malcolm High School. They are raising money for a band trip. The projects have included selling fruit, sausage, cheese and pizza kits, sponsoring a marching band contest, and participating in a patch test for Harris Laboratories. This is something that happens quite often. Obviously, these are not employees in the classic sense. I support the advancement of the bill. Thank you.
